The following essays are included in the online application:

Also, please tell us your top three choice for your future education (what schools)

- Describe your experience with your ACE mentors? How will this experience help you as you transition from high school? What effect did this experience have on your college choice, or choice of study? What was the most valuable lesson you learned from your time with the ACE Mentor program?
- Describe the impact the design and construction industries have on our society. Why are these professions so important? How do you see yourself contributing to these industries within your future ACE field of study?
